## LETTER FROM CHAIRMAN BECK

The Honorable Steven L. Beshear  
Commonwealth of Kentucky  
700 Capitol Avenue  
Frankfort, Kentucky 40601

Dear Governor Beshear:

On behalf of the Kentucky Horse Racing Commission (KHRC), it is my privilege to submit to you the Commission's Annual Report for 2014, pursuant to KRS 230.270. This report presents a summary of the Commission's and the agency's activities and accomplishments, as well as statistical data related to horse racing and pari-mutuel wagering in the Commonwealth.

As the state agency charged with regulating and overseeing Kentucky's horse racing industry, KHRC overcame many challenges while continuing to pursue various safety and integrity initiatives for both horses and participants in Kentucky horse racing. Many of the agency's achievements are detailed in this report and we look forward to building on to this success in the future.

My fellow Commissioners and the KHRC staff appreciate your continued support of the KHRC and the horse racing industry and look forward to working with you to address the challenges that confront one of the Commonwealth's signature industries. Despite an ever-changing landscape, it is my belief that by working together, we will strengthen both the agency's and the industry's positions as leaders on the local, national and international level, in order to ensure that Kentucky remains the "Horse Capitol of the World."

Sincerely,

Robert M. Beck, Jr.  
Chairman  
Kentucky Horse Racing Commission

## EXECUTIVE DIRECTOR'S COMMENTS

As Executive Director I have been privileged to work with an outstanding group of individuals, the members of the Kentucky Horse Racing Commission (KHRC). I would like to thank those Commissioners and the KHRC professional and dedicated staff that have all worked diligently to ensure the safety and integrity of the Commonwealth's horse racing industry. Public Protection Cabinet Secretary Robert Vance, Acting Secretary Larry Bond, Secretary Ambrose Wilson and KHRC Chairman Robert Beck, along with members of the KHRC, have given greatly of their time, thought and good judgment in providing leadership to the horse racing industry in Kentucky. Governor Steve Beshear continues to strongly support and advocate the best interests and goals of the everchanging horse racing industry and the growing challenges facing the industry on a local, national and international level. We continue to flourish by maintaining a solid working relationship with the governor's office and the legislature.

We have a very active Commission, and an active committee structure that analyzes and makes recommendations on specific issues. The Kentucky Horse Racing Commission addressed many safety and integrity issues and matters related to thoroughbred racing, standardbred racing, Breeders' Incentive Funds and the future of horse racing in the Commonwealth. This report summarizes many of the achievements and issues the Commission has faced over the last year.

In conclusion, I would like to again thank the Governor, the legislature, the KHRC Commissioners, staff and all those who helped to move the agency forward during 2014. We will continue to take the lead on issues facing the horse industry, assisting Kentucky to maintain the large number of Kentucky residents that rely on the horse industry for their livelihood and remain the "Horse Capital of the World."

Respectfully submitted,

John T. Ward, Jr.  
Executive Director

This committee met March 10, May 6, June 24 & September 5, 2014.

Money from the KTDF is allocated to each licensed association in an amount equal to the amount the association contributed to the fund. This fund is used for purses and advertising. The KTDF receives an amount which is .75 percent of all wagers from Thoroughbred racetracks on live races and two percent of all wagers on simulcast races.

It is an incentive program that seeks to encourage owners to buy from Kentucky markets, to board and breed mares on Kentucky farms, to mate them with Kentucky stallions, then to race the Kentucky-foaled horses at Kentucky tracks. This program was created in 1978 and placed under the general jurisdiction of the KHRC.

A five-member advisory committee is appointed on the first of July each year to advise and assist the KHRC with this program. KTDF money supplements purses in stakes, handicap, allowance, non-claiming maiden races and allowance optional claiming races for a claiming price of not less than twenty-five thousand dollars (\$25,000) contested at licensed Thoroughbred race meetings in Kentucky. Only registered Kentucky-sired Kentucky-foaled horses are eligible to share in fund purse supplements. Funds that are reverted to the KTDF are a result of non-Kentucky bred horses placing in the designated race receiving those funds. These monies are not distributed to the owner since the horse is not eligible or KTDF registered, but returned to the association for distribution on another designated race.

### **Kentucky Racing Health and Welfare Fund**

The Kentucky Racing Health & Welfare Fund is a charitable, non-profit organization that helps certain eligible individuals in the Kentucky Thoroughbred racing industry who demonstrate need. It was founded in 1978 by an act of the Kentucky legislature. It provides funding toward the payment of medical, hospital, vision and funeral expenses for backstretch workers. It is not an insurance company and does not provide insurance benefits.

The Fund provides benefits for off-the-job injuries and illnesses which are not covered by union health and welfare plans, worker's compensation, social security, public welfare, military benefits, veterans' benefits or any other type of health, medical, dental or accident insurance. Richard Riedel is the Executive Director of the Fund.

The Health and Welfare board members met four times in 2014. For additional information, regarding the *Health and Welfare Fund*, please visit [www.kyracinghealth.org](http://www.kyracinghealth.org).

Chair: Donald Ball

Members:

Rick Hiles, Vice-President

Dr. Randy Scheen, Treasurer

Carol Hebel, Secretary

Peter Salmen, Member, representing HBPA

The Health and Welfare Fund receives funding from un-cashed pari-mutuel tickets that are over one year old. Pursuant to KRS 230.362, any reported pari-mutuel ticket that has not been claimed within one (1) year from the time the ticket became payable is presumed to be abandoned. Each year, any person or association holding any unclaimed tickets presumed abandoned as of July 1 of that year (in other words, any person holding on July 1 any tickets that have not, as of that date, been claimed for a year or more) is required to create a list of the tickets. The list, which records the amount of each ticket, is then submitted to the commission by September 1 of the same

year. Between November 1 and November 15, the person or association then turns over to the commission the sum represented by the tickets as reported.

**County Fair Purse Fund**

The Kentucky Colt Association, also known as Kentucky Fair Racing, has been in existence for several years and is considered one of the best fair circuits in the nation. Purses for Kentucky fair races are funded by Standardbred unclaimed pari-mutuel tickets and the Kentucky Standardbred Development Fund and Kentucky Standardbred Breeders' Incentive Fund. In 2014, there were races at eight fairs throughout the Commonwealth of Kentucky. The races begin in May and end in August. There was also a fair final at the end of the eight circuits. There were separate divisions for two and three year old trotters and pacers and separate divisions for fillies and colts at each fair as well as in the finals.

Horses that are eligible for the fair races must have been nominated and owned wholly or in part by Kentucky residents. For additional information regarding the county fairs, go to <http://www.kentuckycoltassociation.com/>.

## DIVISION OF VETERINARY SERVICES

### Calendar Year 2014

The chief racing veterinarian supervises the operations of the test barn; the collection of urine and blood samples for testing; preparation and documentation of the biologic samples that are transported to the laboratory; management of retained samples; and administration of race day furosemide injections by KHRC veterinarians. The chief racing veterinarian also oversees all regulatory veterinary activities associated with live racing—pre-race examinations; race-day furosemide administrations; on-track monitoring of horse health and soundness; triage of racing injuries; management of the veterinarians' list of horses determined to be ineligible to race for veterinary medical reasons; record keeping; personnel performance; and staff scheduling.

The KHRC official veterinarians examine all in-today horses for soundness and racing fitness to ensure the health and safety of every horse, jockey and driver. On race day, each Thoroughbred is evaluated by KHRC veterinarians in the morning at the pre-race exam, while in the saddling paddock, and during the pre-race warm-up. The pre-race exam includes an in-stall, hands-on evaluation followed by observation of the horse in motion outside of its stall. Standardbred horses are evaluated during the warm-up trips. Records of Thoroughbred exams are permanently stored in a central server, managed by InCompass, which has shared access by racing regulatory veterinarians in multiple jurisdictions. This allows veterinarians to monitor a horse's condition over time despite its having raced at different tracks or in other states.

KHRC veterinarians are present in the paddock, at the starting gate, in the horse ambulance, and in the Test Barn during live Thoroughbred racing in Kentucky. For Standardbred racing, the KHRC veterinarian attends the Test Barn and either observes races via live racetrack video feed or is present trackside for each race.

If a horse sustains an injury or demonstrates signs of unsoundness at any time prior to the start of the race, the KHRC veterinarian examine the horse and, where warranted, recommend to the chief state steward or presiding judge that the injured horse be scratched from participating in the race for the protection and safety of all participants. KHRC veterinarians enter data relevant to KHRC initiated scratches, and race-related accidents, injuries, or medical conditions of Thoroughbreds into the Jockey Club Equine Injury Database.

All horses that die or are euthanized as a result of a condition sustained during the running of a race are submitted for necropsy to the University of Kentucky, Veterinary Diagnostic Laboratory (VDL). The KHRC may require necropsy of any horse that dies or is euthanized at a facility under the jurisdiction of the KHRC. For musculoskeletal injuries resulting in a fatality, a specialized racing necropsy group

at the UK-VDL, performs an in depth evaluation (including radiography) of the injured limb, and its uninjured counterpart.

KHRC veterinarians or licensed veterinary technicians perform blood sampling associated with post-race testing or pre-race TCO<sub>2</sub> analysis. KHRC Test Barn technicians are responsible for the collection of post-race equine urine samples to be sent to the KHRC official laboratory for analysis. The ability to collect paired (blood and urine) samples from each horse subjected to post race testing insures that the full scope of instrumental analysis—testing for more than 1,500 substances—can be applied to every horse. All post-race samples undergo testing that exceeds the requirements of the Thoroughbred Owners and Breeders Association (TOBA) Graded Stakes Committee.

Horses working under the observation of a KHRC veterinarian for release from the veterinarian's list—having been previously declared to be unfit for competition due to injury or unsoundness—are subjected to post-work blood sampling to ensure that a horse's medication status does not obscure accurate assessment of its suitability for return to racing.

The KHRC continues to implement out-of-competition testing for the detection of blood doping agents and other prohibited substances. This testing is applied across all breeds and classes of racing. For specific, targeted events, such as the Kentucky Derby and Oaks, out-of-competition sampling is performed in other states and countries by other racing regulatory authorities on behalf of the KHRC. All out of competition test results have been negative since the inception of testing in 2010.

In Thoroughbred racing, the winning horse and a minimum of one other horse are selected by the stewards to be submitted to post-race blood and urine collection. In Standardbred racing, all winners are tested. In both Thoroughbred and Standardbred racing, additional horses are tested at the discretion of the Stewards or Judges. For Graded Stakes and races with purses  $\geq$  \$100,000, four or more horses are sampled.

TCO<sub>2</sub> testing, to detect the total amount of carbon dioxide in the blood, is conducted on samples collected pre-race. Horses in overnight races are identified for sampling on a random basis. All horses entered in Graded Stakes are subjected to pre-race TCO<sub>2</sub> testing. This testing is intended to identify horses having been administered an alkalinizing substance that, by neutralizing the buildup of lactic acid in the athlete, delays the onset of fatigue and thus enhances performance. For Thoroughbred racing, TCO<sub>2</sub> testing is performed at the KHRC's official laboratory, LGC Sport Group (formerly HFL Sport Science), on a post-race basis and within 120 hours of sampling. For Standardbred racing, TCO<sub>2</sub> sampling and analysis is performed on site by the KHRC veterinarian or licensed veterinary technician and

analysis is completed prior to post time for the race in which the sampled horse is entered.

LGC Sport Group is the official laboratory of the KHRC. The laboratory is ISO 17025 accredited, and was awarded accreditation by the Racing Medication and Testing Consortium (RMTC) in 2013. In 2014, inclusive of post-race testing, pre-race TCO<sub>2</sub> testing, out-of-competition testing, and post work testing, \$645,679.50 was spent on drug testing for horse racing in Kentucky.

The only permissible injection to be administered to a horse on race day is furosemide. KHRC veterinarians perform the administrations to furosemide-eligible horses between 4 ½ and 4 hours to their scheduled post time. The fee for KHRC race day furosemide administration is \$20. This fee is comparable to that historically charged by private practicing veterinarians for the same service. In 2014, KHRC veterinarians performed 13,340 administrations of race day furosemide in accordance with 810 KAR 1:018.

The KHRC Uniform Drug and Medication Penalty Classification Schedule was developed in consideration of 1) a substance's RCI Classification; 2) the presence or absence of a legitimate therapeutic use for the substance; 3) FDA approval for use in the equine or other species; and 4) other pertinent factors given the substance and matters concerning Kentucky racing.

## DIVISION OF SECURITY AND ENFORCEMENT

The primary duty of the Division of Security and Enforcement is to investigate and detect any violations of the laws and rules as they pertain to Thoroughbred and Standardbred racing. The Enforcement Division is made up of a director of enforcement and two investigators.

The Enforcement Division conducts investigational interviews with applicants who indicate on their license application that they have a criminal record and/or conviction for a public offense or a suspension of, or revocation of a license for any racing related infraction.

The division utilizes records and information from the ARCI, Thoroughbred Racing Protective Bureau (TRPB), United States Trotting Association (USTA), Standardbred Canada, and the KHRC licensing database. The division also communicates with security and enforcement divisions in other jurisdictions, federal, state, and local law enforcement and the court systems to gain information for criminal background checks and the suitability for licensure in Kentucky.

Alleged or actual criminal offenses are investigated, including human drug violations, assault on association grounds, burglary, theft, forgery and disorderly conduct. The division will provide assistance to law enforcement to complete criminal investigations. Investigations are also conducted regarding a vast array of other potential violations, such as hidden ownership, claims violations and pari-mutuel concerns. Barn and vehicle searches are conducted as necessary, as well as random visits to off track wagering facilities and training centers. The KHRC enforcement division works in cooperation with various agencies of law enforcement in multiple jurisdictions, including local police, county sheriffs, state authorities and federal organizations, along with racing investigators from other jurisdictions.

The KHRC enforcement division performs breathalyzer alcohol testing and drug screening of jockeys and various other racing officials on a random basis. Investigators perform drug testing on individuals at the order of the Stewards. The collection of syringes and other potential evidence performed by the division is completed in accordance with police procedures and accurate chain of custody. The division also responds to complaints received from the KHRC Integrity hotline, which is posted on the KHRC web site, as well as posters at all licensed facilities including the OTB's.

## **RACING SUPERVISION - STEWARDS and JUDGES**

The stewards and judges exercise immediate supervision, control and regulation of live racing at each licensed race meeting on behalf of the Kentucky Horse Racing Commission. The powers of the stewards include authority over all horses and all persons, licensed or unlicensed, on association grounds during each race meeting as to all matters relating to racing. The stewards conduct hearings and issue determinations of all questions, disputes, protests, complaints or objections concerning racing which arise during a race meeting and are responsible for issuing decisions or rulings pertaining to racing which shall supersede orders of the officers, directors, and officials of the association. In Standardbred racing, the judges also serve as placing judges.

As a matter of course, Kentucky stewards review the films of each race from three different camera angles before the results are posted “official.” The chief state steward, associate steward and the presiding and associate judge are employees of the KHRC. The other steward and judges are employees of each racing association. For additional information regarding Thoroughbred, Standardbred and Quarter Horse stewards and judges rulings, go to: [http:// khrc.ky.gov/racing/rulings.htm](http://khrc.ky.gov/racing/rulings.htm).

## **DIVISION of LICENSING**

Kentucky state law requires all persons wishing to participate at Kentucky racetracks and facilities under the jurisdiction of the KHRC to be licensed by the KHRC. The KHRC may issue a license if it finds that the financial responsibility, age, experience, reputation, competence, and general fitness of the applicant to perform the activity permitted by the license are consistent with the best interest of the honesty, integrity, and high quality of Kentucky racing. A license is valid for the calendar year in which it is issued (i.e. – all licenses expire on December 31) unless suspended or revoked under administrative regulations promulgated by the Commission.

The Licensing Division maintains a central office located at the Kentucky Horse Park in Lexington and is present on all association grounds prior to and during the opening of live race meetings in order to process license applications and collect fees.

For additional information regarding the licensing process related to participation in horse racing in Kentucky, see the Commission’s website at <http://khrc.ky.gov>. Also, applications for licensure may be downloaded from the KHRC web site at <http://khrc.ky.gov>.

## Division of Incentives and Development

The Kentucky Breeders' Incentive Fund was established in 2005. Included in the plan were tax incentives to ensure the strength and growth of the various breeds of the horse industry. The Breeders' Incentive Funds are financed through the six-percent sales tax paid for breeding a stallion to a mare in Kentucky together with any other money contributed, appropriated or allocated to the fund from all other sources. The majority of the tax collected on stud fees is contributed based on the tax from Thoroughbred stud fees.

### Kentucky Thoroughbred Breeders' Incentive Fund (KTBIF)

The Kentucky Thoroughbred Breeders' Incentive Fund is financed through eighty percent of the receipts collected from the sales and use tax on stud fees. The money deposited in the Kentucky Thoroughbred Breeders' Incentive Fund is used to administer the fund and provide awards for breeders of horses bred and foaled in Kentucky.

To qualify for the program, the mare must have been covered by a Kentucky stallion registered with the KTDF and the mare must remain in Kentucky from the time of first cover until foaling. Foals born in 2006 and prior years were grandfathered into the KTBIF program if the foal was eligible for the KTDF.

In 2014, the KTBIF offered four registration periods and the majority of the registrations are completed during the cover-year. From January 1 – August 15 of the cover year, the intended breeder of record was required to register the unborn foal with the KHRC and pay a filing fee of \$60 or from August 16 – December 31 the cost was \$150 to register the unborn foal. Additionally, there were the following late application periods, from January 1 through December 31, foals of 2014 could register for \$750 and from January 1 to December 31, yearlings could register for \$1,500.

## Kentucky Standardbred Development Fund & Kentucky Standardbred Breeders' Incentive Fund (KSDF/KSBIF)

The Kentucky Standardbred Development Fund is financed by a portion of the pari-mutuel tax and the Kentucky Standardbred Breeders' Incentive Fund is financed through thirteen percent of all receipts collected from the sales and use tax on stud fees. The money deposited in the Funds is used to administer the program and provide awards for breeders or owners of Kentucky-bred Standardbred horses through the Kentucky Sire Stakes (KYSS).

In 2014, the premier event of Standardbred racing in Kentucky, the Kentucky Sire Stakes was conducted at The Red Mile showcasing the U.S. and Canada's top competitors. The KYSS distributes over \$1.6 million, contested over a total of eight races with purses of \$175,000 per division for two-and-three year-old pacers and trotters. For information regarding the Kentucky Sire Stakes program, visit <http://khrc.ky.gov/Pages/KYSS.aspx>.

## Division of Parimutuel Wagering

Created in 2009, KHRC's Division of Parimutuel Wagering is responsible for the oversight of processing and the accuracy of all wagering in Kentucky on live horse racing, simulcasting and Historic Horse Racing. This includes compliance auditing of Associations, Tote Companies and licensed ADW's within the Commonwealth. The section has developed a series of tests and reviews to ensure that the entities it oversees are in compliance with Commonwealth statutes and regulations.

The section created the first set of Totalizator Standards for the Commonwealth and is currently working with **G**aming **L**aboratories **I**nternational to come up with a similar set of standards for companies which process data for Historical Horse Racing. The section also works in conjunction with **GLI** to ensure that all updates to Historic Horse Racing software comply with current statutes.

The section works with CHRIMS to ensure that the data on live and simulcast horse racing received from the Associations is correct for taxation on handle.

The current staff is licensed as Certified Fraud Examiners.
